

# Breaker Steels

Specially selected by

## Bosch 11205

MOIL POINT

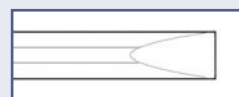

Part number	Description
Y-B11205-MP380	<b>Moil Point - 380mm o/a length</b>

Drop forged of high grade steel, this hammer iron with heat treated work areas is used for demolition work and starting holes in the centre of a concrete slab. The most common of the demolition steels used for general breaking where there is not a requirement to control the line of fracture.

NARROW CHISEL

Part number	Description
Y-B11205-NC380	<b>Narrow Chisel - 380mm o/a length</b>

Narrow Chisel is used in a similar way to the Moil Point but the line of fracture is controlled along the line of the chisel end. Used on applications where it is important to have a clean edge retained on the work piece being broken.
