

Multi-headed Concrete Floor Scabblers

Vibration Control

A selection of our tools are fully equipped with a range of vibration reducing design features for smoother operation and greater comfort. By selecting a vibration controlled option, you not only decrease any potential health risks to your tool operators, but you could also massively increase your productivity levels. The vibration control feature increases the length of time the tool can be used before current ELV & EAV levels are reached.

Dust Extraction

Many of our products are dust extraction ready so can be directly connected to your dust extraction unit. Other tools in the range require an optional dust extraction shroud. Using dust extraction not only creates a cleaner safer working environment, but will extend the life of the cutter or grinding media & increase the speed a work area is completed.

MHS5

- 5 x 50mm (2") heads operate at 1300BPM delivering aggressive demolition power
- Robust build quality to withstand construction environments
- Adjustable handle
- Vibration reduced
- Built in dead mans handle
- Internal components sealed from dust
- Large wheels for rough terrain
- Ideal for reducing high spots / levelling floors
- Ideal for texturing bridge decks for sealants
- Ideal for roughening surfaces to anti slip floors / overlays
- Ideal for breaking down hard coatings prior to floor blast cleaning

Type	MHS5
Brand	TRELAWNY
Weight kg	114
Width / cut mm	720/290
Blows p/min	5 x 1,300
Air cons. l/s CFM	38 / 80.0
Inlet thread	PT 3/4" - claw
Hose diameter mm	12
Vibration m/s ²	16.5
Noise level dB(A)	94.7

ELV - Daily Exposure Limit Value

EAV - Daily Exposure Action Value

Product Code	Time to reach ELV (hours:minutes)	Time to reach EAV (hours:minutes)
MHS5	0.44	0.11

ACCESSORIES

5 Point Head

Part number

Y-UK-LVPS-5PHEAD

Description

5 pin tungsten carbide concrete scabber head
