POLE SCABBLER / COMPACTOR

YOKOTA

Vibration Control

A selection of our tools are fully equipped with a range of vibration reducing design features for smoother operation and greater comfort. By selecting a vibration controlled option, you not not only decrease any potential health risks to your tool operators, but you could also massively increase your productivity levels. The vibration control feature increases the length of time the tool can be used before current ELV & EAV levels are reached.

VL LRS55

- Suitable for pathway & highway reinstatement applications and concrete surface preparation
- Good ergonomics and well balanced
- Option of 5" round compactor foot or 5/9 pin tungsten carbide concrete scabbler heads
- Air cushion vibration damping system for smooth operation and greater operator comfort
- Compact and lightweight
- Up to 1,300 Blows per minute
- 1,270mm overall length
- Low air consumption
